PROFESSIONAL SUMMARY

Flutter developer with 3+ years of experience (including internship) building iOS and Android apps, with 2 apps live on Google Play (5K+ downloads) and the App Store. Integrates backend services and third-party SDKs: REST APIs, Firebase (Auth, Firestore, Analytics, Crashlytics, FCM), payment gateways and OneSignal. Works with AWS and Docker, GitHub Actions CI/CD and automated unit and widget tests. Focused on performance and monitoring: 30% faster app load times, and crash-free sessions raised from 94% to 99.2% with Crashlytics and structured logging.

WORK EXPERIENCE

Mobile Application Development | PN Software Pvt Ltd, West Bengal, India *July 2024 – Present*

- **Shared architecture:** built a white-label EMI device-financing platform (customer device-lock app plus admin/lender app) with Android Device Admin / Device Owner enforcement, managed through a multi-client build pipeline that ships 7+ distinct branded apps from one codebase.
- **Reliability & performance:** migrated its remote command channel from Socket.IO to push-based delivery (OneSignal/FCM) to improve reliability when the app is killed and cut background battery drain.
- **Achievement:** cut average on-chain transaction processing time by 40% by optimizing gas estimation and moving transaction submission to an asynchronous queue.
- Architected and developed a Flutter and React Native blockchain application with secure crypto wallet connectivity and Web3 smart contract integration for on-chain transactions.

Software Engineer (Flutter) | Saavy Relations Software LLP, India *July 2023 – June 2024*

- **Achievement:** cut app load times by 30% and increased user engagement by 20% through UX optimization, local caching (Hive/SQLite) and reduced state rebuilds.
- Built fintech features across 3+ production Flutter applications using Provider and Riverpod for state management and a repository-based data layer.
- **Testing:** added unit and widget tests to catch regressions before release; integrated payment gateways with encrypted transaction handling.

Flutter Developer Intern | Threeway.Studio, India *February 2023 – June 2023*

- **Quality:** integrated Firebase Analytics and Crashlytics and built a structured error-handling and logging system, raising the crash-free session rate from 94% to 99.2%.
- Delivered 2 production Flutter applications end-to-end, covering UI implementation, API integration, testing and Play Store deployment.

PROJECTS

Oxifleet – Fleet Management Driver App | Flutter, Provider, Socket.IO, FCM, Google Maps | App Store (live)

- Built a cross-platform (iOS/Android) fleet management app for drivers with a feature-based modular architecture covering vehicle tracking, bookings, service requests and documents.
- Implemented real-time driver-fleet communication over Socket.IO and live vehicle/booking tracking with Google Maps and Geolocator, plus biometric auth and Firebase push notifications.

BCSwap – Multi-Chain Crypto Wallet & DEX App | Flutter, web3dart, Hive, Firebase | Google Play, 5K+ downloads

- Built core wallet, swap and blockchain integration features for a multi-chain crypto wallet supporting Ethereum, Bitcoin, Solana and Tron from a single seed phrase.
- Engineered a unified multi-chain wallet service handling HD key derivation and address generation across all four chains, with in-app token swapping, cross-chain bridging, staking and real-time price/transaction updates over Socket.IO.

TECHNICAL SKILLS

- **Languages:** JavaScript, Dart, Kotlin, Java, SQL
- **Mobile / Frontend:** Flutter SDK, React Native, Android SDK, Material Design, BLoC, Riverpod, Provider, GetX, MVVM / Clean Architecture
- **Cloud, APIs & Data:** AWS, Firebase (Auth, Firestore, FCM, Crashlytics), REST APIs, Dio, Socket.IO, PostgreSQL, SQLite, Hive, Web3 integration, TensorFlow Lite
- **Testing & Delivery:** unit and widget testing, GitHub Actions CI/CD, Docker, Git, Postman, Agile, SDLC

CERTIFICATIONS

Docker Foundations Professional Certificate – Docker Inc. | GitHub Foundations – GitHub | SSOC Contributor – open-source contributor, Social Summer of Code

EDUCATION

Bachelor of Technology in Information Technology *2021 – 2025*
JSPM's Bhivarabai Sawant Institute of Technology and Research, Savitribai Phule Pune University (SPPU), Pune, Maharashtra
